PINIER NICOLAS

FULLSTACK WEB DEVELOPPER

ABOUT ME

Passionate about technology and with a strong foundation in web development, I am a motivated and curious individual who is always eager to learn and improve.

With a solid understanding of modern web technologies, I bring enthusiasm and a commitment to excellence in every project.

At 27 years old, I am excited to contribute my skills and continue growing as a professional in the field.

WORK EXPERIENCE

Agence Mill - Privas (France)
Web developer
August 2024 - Today

As a Fullstack Web Developer, I specialize in developing secure, user-centric frontend applications with a focus on intuitive UX/UI design. I create scalable, robust architectures and implement efficient, secure REST APIs.

Agence Mill - Privas (France)
work-study web developer
October 2023 - August 2024

As a Student Fullstack Web Developer, I am primarily responsible for reworking a SaaS platform. My key tasks include implementing new features, developing user-friendly frontend interfaces for the admin panel, and building secure, scalable backend APIs.

EDUCATION

My Digital School - Annecy (France)
Application developer designer
2023-2024

Studi
Web & mobile developer
2021-2023
